ence With French Pre-

[ASSOCIATED PRESS TELEGRAM]  
London, Aug. 2.—James Henry Thomas, labor member in the house of commons, warned the government yesterday that if labor members were prevented from discussing peace by a refusal of passports to countries where it is proposed to hold conferences it would be inviting the labor party to step in and force the government's hands. Premier Lloyd George assured the house that the government had not in the least altered its view on the only possible conditions of peace consistent with the honor and security of the country. The debate was on the question whether the government was acting constitutionally and in the national interest in permitting Arthur Henderson, member of the war council, to accompany a pacifist mission, including James Ramsey MacDonald and George James Wardle, both members of parliament, to Paris.

The government, continued Lloyd George, proposed to take no part in any conference such as Mr. Henderson described, either by a representative or by having any member of the government present. It would allow no sectional conference dictate terms of peace.

Proceeding to allude to Mr. Henderson's dual position, the premier, after paying a tribute to Mr. Henderson's war work on munitions and recruiting, said there were similar dual positions in Paris, where labor had done great administrative war work, and before he considered what had been criticized as anomalous, he should like to discuss it with his French colleagues who are in the same position and the French premier would be here within 48 hours. On the main question the government had to pay no attention to pacifists but to devote its whole time to prosecuting the war.

Lloyd George agreed that there was something in Mr. Henderson's contention as to advantages and disadvantages which should be weighed. He wondered whether the house realized the explosive material there was about. He never despised the allied cause and felt that Russia would recover, but he begged the house of commons not to pass hasty judgment. It must realize the vital necessity of preserving unity in order to accomplish victory. England was a country whereupon the allies depended more than any other.

If they began to dissolve and disintegrate and fling one colleague after another into the arms of those fighting for the pacifists ends then he really would despair. He appealed to the house to preserve unity in order that "we might win a victory worthy of the cause for which so many sacrifices have been made."

After hearing Mr. Henderson's explanation of his mission, which strongly emphasized his views that the proposed conference should be merely consultative and cannot in any way be binding, Lloyd George's reply, which dilated on Mr. Henderson's valuable service and his plea to the house not to pass hasty judgment, or insist on an immediate explanation as to why certain courses had been taken, motion of Viscount Euncannon, Unionist, to consider whether the government was acting constitutionally in permitting Mr. Henderson to accompany the mission, was talked out.

Press critics of Mr. Henderson and the government are dissatisfied with the debate. The speeches, they say, did not appreciably modify the hostility of a large section of the house, including a strong labor element. Mr. Henderson's patriotism is unimpaired but the fact that he did not repudiate a willingness to meet German delegates at Stockholm leaves the attitude of the critics much as before. Mr. Henderson, secretary of the labor party, convened a special party conference for August 10, when, presumably the extent of the reported cleavage among labor members on this question will be revealed.

RUSSIAN WOMEN  
FLOCK TO COLORS

[ASSOCIATED PRESS TELEGRAM]  
Petrograd, Wednesday, Aug. 1.—(Delayed)—As the result of the heroic conduct at the front of Miss Vera Butchmareff's female battalion the movement for the creation of a great female army is progressing throughout Russia like wildfire. Seven hundred women are now uniformed and drilling and 500 more enrolled. Applications from 1,500 girls are on file. They include peasants and educated girls from the cities.

CRAZED POLICEMAN  
KILLS CHIEF AND  
WOUNDS 2 OTHERS

[ASSOCIATED PRESS TELEGRAM]  
New Orleans, Aug. 2.—James W. Reynolds, superintendent of the New Orleans police department, was shot and killed in his office today by Terrence Mullen, a patrolman. Captain of Police Gerry Mullen, who was in the superintendent's office at the time also received two bullet wounds in the chest.

Reynolds was almost instantly killed while sitting in his chair. George Vandervoort, secretary to the superintendent, who sought to enter the room when the shooting began, received a bullet wound in the head. Both he and Captain Mullen are in a critical condition.

Patrolman Mullen was shot in the hand and captured by police officials as he was trying to escape. The authorities expressed the opinion that he had become suddenly insane. Several years ago, it was stated, he was treated for a mental trouble.

PLANS COMPLETED  
FOR GOVT. CONTROL  
OF OCEAN TONNAGE

[ASSOCIATED PRESS TELEGRAM]  
Washington, Aug. 2.—Plans for taking over for operation all American carrying merchant ships will be announced by the shipping board. Charters will be requisitioned under a recent act of congress authorizing the President to commandeer tonnage for government uses.

The program is preliminary to putting into operation an agreement between the American and British governments for joint control of the world's shipping. It will give the shipping board control of ocean freight rates charged by American ships and a rate basis being worked out will be used for building an international rate schedule.

The chief aim in commandeering charters is to get more ships into trans-Atlantic service. Many American coastwise vessels and ships now engaged in the Pacific and South American trade will be diverted to trans-Atlantic runs. Their places will be taken to a large extent by neutral ships and by Japanese tonnage. The plan is to commandeer charters and, wherever advisable, let the ship itself be operated by its owner under a government charter.

In this way the government will direct operations and specify services in which ships shall play and, at the same time, avoid expenditure of the vast sum of money that would be required if the hulls themselves were taken over.

Wherever operators fail to carry out the shipping board's regulations charters will be taken from them and given to others.

RUSSIAN COLLAPSE  
ONLY PROLONGS WAR  
SAYS GEN. MAURICE

[ASSOCIATED PRESS TELEGRAM]  
London, Aug. 2.—"Looking from the broadest aspect at the events of the past fortnight in Russia," said Major General Frederick B. Maurice, chief director of military operations at the war office, in his weekly talk today to the Associated Press, "it will necessarily mean a prolongation of the war. We cannot longer count on any great material assistance from Russia. This means a greater burden on the other entente allies, and for the United States it means that she must come into the field as soon as possible and with the greatest possible force."

24 OF CREW LOST  
WHEN MOTANO SINKS

[ASSOCIATED PRESS TELEGRAM]  
London, Aug. 2.—It was reported at the American consulate here today that 24 members of the crew of the American steamship Motano, which was sunk by a German submarine on July 31, lost their lives.

TERRITORY AFTER PEACEFrench People and Soldiers

[ASSOCIATED PRESS TELEGRAM]  
Paris, Aug. 2.—Jules Cambon, general secretary of the ministry of foreign affairs, commenting on Premier Ribot's reply in the chamber of deputies to the recent statement of Dr. Michaelis, the German chancellor, with regard to a secret treaty with Russia, said to the Associated Press yesterday:

"The purpose of Herr Michaelis was to mislead the anti-annexationist element of Russia and the United States in attributing to France a desire to annex what had never belonged to it. No Frenchman, myself among them, who keeps the memory of the sad wound of 1870 would have dreamed of precipitating Europe into a war to avenge this injury, but since war has been imposed upon us it is natural and just that we should profit by it to retake what had been unjustly torn from us."

"In the region of the Sarre to which allusions have been made are towns which have been French for centuries and which the treaty of 1814 recognized as ours. Sarre, for example, is the birthplace of Marshal Ney, who in 1814 refused before a court-martial to avail himself of the argument of his lawyer, who would have made him innocent of the crime of treason by the fact that his birthplace was no longer in France. Ney preferred to be shot rather than to renounce his French citizenship by judicial subtlety."

Mr. Cambon considered the allegations of Herr Michaelis as having been caused by the necessity of replying to the revelations respecting the crown council at Potsdam, July 5, 1914. Mr. Cambon, who was then ambassador at Berlin, said:

"I have reason to believe that these revelations, which place at this date the responsibility and initiative of the war conform to the truth and I am not surprised that the German government attempts to divert the discussion by accusing us of seeking annexations which are absolutely contrary to the feelings of all reasonable Frenchmen."

Respecting the Balkan conference which took place last week in Paris, Mr. Cambon expressed the hope that the United States would take part and make its voice heard in all future conferences. "France and the United States," said he, "are countries whose principles and whose objectives in this war are most alike."

Mr. Cambon alluded to certain distressing articles published in America concerning the present situation in France which did not take into account the French habit of loving to judge and criticize those directing affairs whether they were civilians or military men.

The morale of the French people and the French army, he said, was in no respect enfeebled as proved by the brilliant result of the offensive in Flanders and the vigor of the resistance of the French troops upon the Chemin des Dames. These military operations, he continued, might last a long time with varying results but from that campaign he foresaw the best result. He likened the intense and prolonged fighting upon the Chemin des Dames to Verdun.

GERMAN PEOPLE WARNED THAT U. S.  
WILL PROVE SERIOUS FOE TO TEUTONS

[ASSOCIATED PRESS TELEGRAM]  
Copenhagen, Aug. 2.—Major General Nieuwenhuys, one of the highest retired officers in the Danish army, writes in the National Tidende that Chancellor Michaelis in his address to the Reichstag took the subject altogether too lightly when he dismissed America's participation in the war as a negligible factor owing to lack of tonnage. The writer says the United States possesses an adequate tonnage to transport a considerable force on one voyage alone and also to supply it. He says recent war history notably Boer and Russo-Japanese, furnishes precedent to show that the United States with its wealth and rich auxiliary resources is able to transport and maintain a formidable army.

[ASSOCIATED PRESS TELEGRAM]  
Zurich, Aug. 2.—The military critic of the Munchener Neueste Nachrichten, regrets that British diplomacy has been more clever and successful than the German. He says it has been constantly making new allies until now there are 1,350,000,000 foes against Germany's 150,000,000 and declares that Great Britain's greatest gain in this respect is America. Nothing is more foolish than arrogantly to underestimate America's entry into the war, he says. "Economically, politically and financially, an Anglo-Saxon circle has now been formed and threatens to rule the world unless we expose a central European and Asiatic combination against it. The military importance of America is equally great. She requires only time to become effective."

[ASSOCIATED PRESS TELEGRAM]  
British Front in France and Belgium, Aug. 2.—Americans played a small but important part in the battle of Flanders. A number of American "surgical teams" who were brought to the front from the base hospital by the director general of the medical service worked side by side with their British allies in caring for the wounded.

Each team consists of a surgeon, anaesthetist nurse and an orderly and they have been doing excellent work.

[ASSOCIATED PRESS TELEGRAM]  
New York, Aug. 2.—Germany is battling with a desperation probably unparalleled in the war to hold her lines in Flanders against the combined Anglo-French attacks. Notwithstanding the heavy handicap which the atrocious weather has imposed on them, however, the entente forces have made good their most important gains and apparently are now settling clearing conditions to blast their way further into the Teutonic front.

The boasts of successful resistance to the entente thrusts that have come from the Berlin war office were based as usual on the unwarranted assumption that an attempt had been made to break through and upon the fact that at one or two points the German reaction resulted in some of the far-advanced forces of the allies being pushed back. Today, however, comes the announcement from London that despite the hampering rainfall the British have negated the results of one of the German counter thrusts, completely re-establishing their line in the neighborhood of the Roulers-Ypres railway as the outcome of a night attack.

Where there may be some inclination on the part of lay critics to regard with some misgivings the stress laid upon the bad weather by the official reports were able to hold up the allied advances, observers at the front apparently are in entire agreement with the seriousness of this handicap.

The allies had established air superiority and the storm has prevented observation altogether, entailing inactivity on the part of the big guns that are relied upon to blast a path for the advancing infantry. To the low visibility, also, has been attributed such success as the Germans were able to gain in their counter attacks, the poor sighting conditions preventing the entente gunners from mowing their fire effectively to break up the enemy concentrations.

Despite the hard fighting in Flanders the Germans are continuing their pronounced activities on the French front. Paris reports two attacks on the French lines east and southeast of Rheims and assaults in the Verdun region. In the latter Forest southeast of St. Mihiel. All these were fruitless for the Germans. Some important movement apparently is under way on the Russian northern front which has been holding entirely firm. The southern end of the line was falling back. Now, however, the Russians are reported to have evacuated the Uskull bridgehead, 15 miles southeast of Riga, the Germans marching into the evacuated positions. The exact significance of this development is yet to be revealed.

SLACKERS DEFEAT  
DRAFT BY GIVING  
FAKE ADDRESSES

[ASSOCIATED PRESS TELEGRAM]  
Washington, Aug. 2.—Hundreds of men in the chief cities of the country, reports to the department of justice show, gave fictitious addresses for draft registration, and are now being sought by government agents. Bridges, vacant lots, streets that do not exist and in some cases factory sites were given as addresses by registrants who since have disappeared. In a large number of cases prospects are not considered bright for finding the slackers.

The practice appears to have been more prevalent in the larger cities. Few cases of the sort are reported from communities having less than 100,000 population. Slackers, who after having registered, fail to report for physical examination, will be ordered into the military service of the United States without further preliminaries, losing claims of exemptions and other considerations.

Machinery for dealing with them has been set up in co-ordination with the adjutant general of the states. A weekly checking up process has been devised.

FRIENDS DELAY PROHIBITION BILL  
'TIL DECEMBER TO IMPROVE CHANCES

[ASSOCIATED PRESS TELEGRAM]  
Washington, Aug. 2.—National prohibition by constitutional amendment was hung up in the house today by the prohibition leaders themselves. The resolution to submit the proposal to the states, passed yesterday by the senate, was put out of the program for the present session and will not come up until the regular session in December.

Plans to reconvene the Democratic caucus and reverse its decision to consider only war legislation were abandoned because it was believed delaying action until the next session will help the prohibition cause.

The resolution passed the senate late yesterday by a vote of 65 to 20, eight more than the necessary two-thirds, and today house dry leaders were preparing to press for its prompt consideration there. They claim it will pass.

The only change made in the resolution as originally reported to the senate was the adoption of an amendment providing that the constitutional amendment should be imperative unless ratified by three-fourths of the states within six years from the date of its submission.

Senator Harding of Ohio supported the resolution while Senator Pomerehne opposed it. Others opposing it were: Democrats, Broussard, Culberson, Gerry, Hardwick, Hitchcock, Husting, James, Lewis, Phelan, Reed and Underwood; total 12. Republicans, Brandegee, Calder, France, Lodge, Penrose, Wadsworth, Warren and Weeks. Total 8; total against 20.

ARMY AVIATOR IS  
KILLED; PLUNGES  
800 FT. TO GROUND

[ASSOCIATED PRESS TELEGRAM]  
Mineola, N. Y., Aug. 2.—Captain Ralph L. Taylor, in command of the training section of the aviation signal corps here, lost control of his airplane today and plunged 800 feet to his death. Sergeant Thomas Pell, who was in the machine with him, suffered a broken jaw and internal injuries.

The two aviators had been flying but a short time when it was noticed something apparently went wrong with the machine and it dropped toward the earth. Captain Taylor was dead when taken from the wreckage.

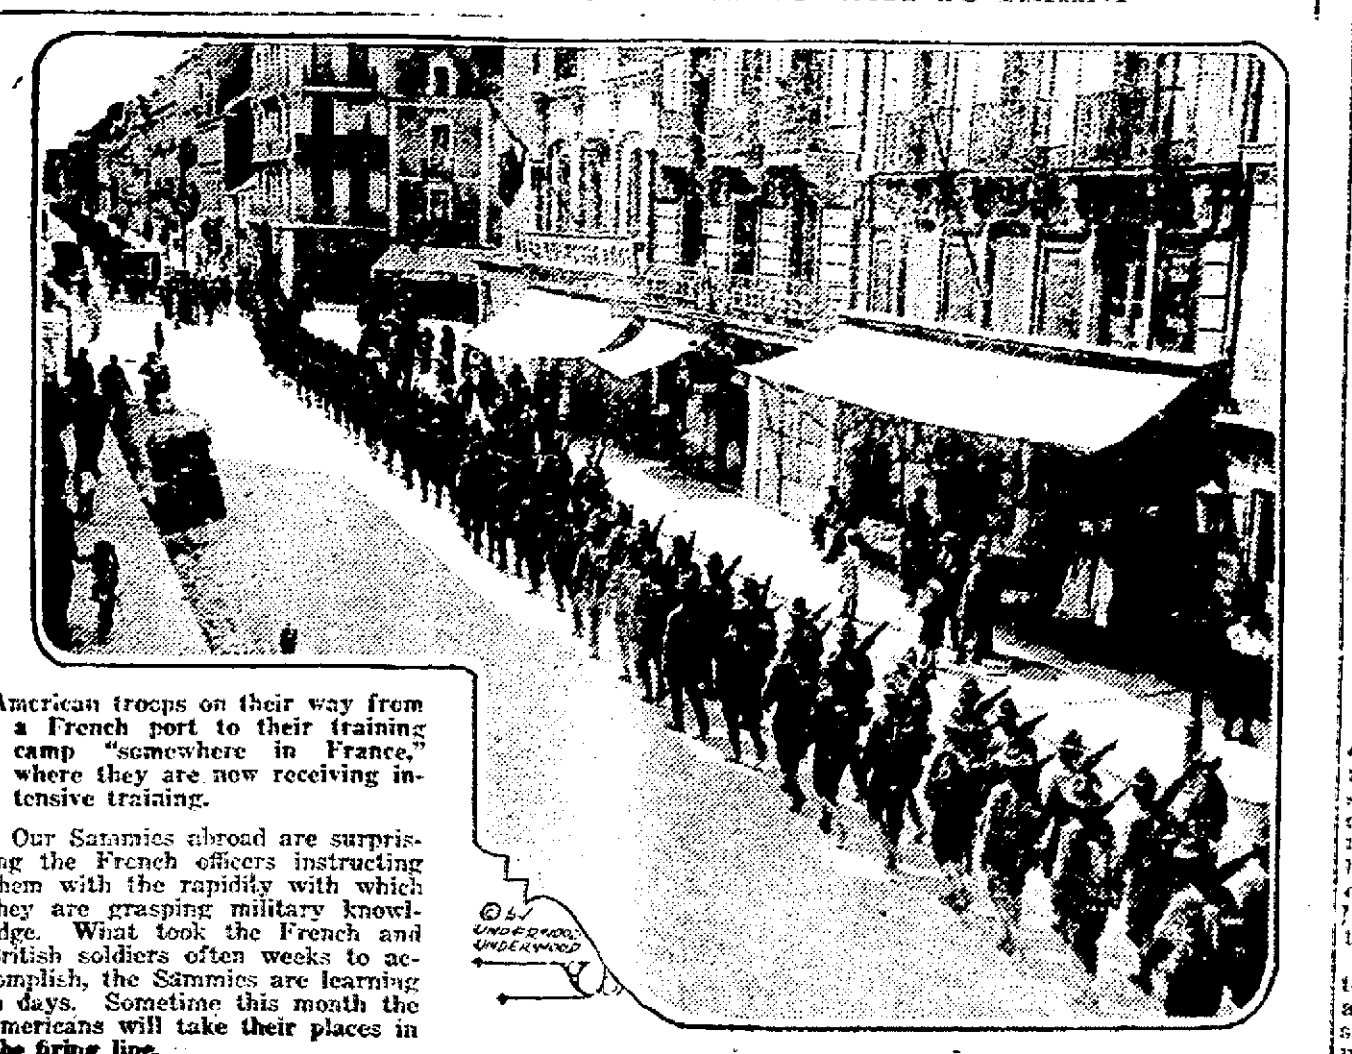

Captain Taylor had been in command of the instructors and students about two months and was an expert flyer. He was married two months ago. His home was in Branford, Conn.

U-BOAT GUNS SINK  
AN AMERICAN VESSEL

[ASSOCIATED PRESS TELEGRAM]  
London, Aug. 2.—The American schooner, John Hays Hammond, has been sunk by the gunfire of a German submarine. All the members of the schooner's crew were saved.

The John Hays Hammond was a schooner of 132 tons gross, and was built at Bath, Me., in 1907.

American troops on their way from a French port to their training camp "somewhere in France," where they are now receiving intensive training.

Our Sammies abroad are surprising the French officers instructing them with the rapidity with which they are grasping military knowledge. What took the French and British soldiers often weeks to accomplish, the Sammies are learning in days. Sometime this month the Americans will take their places in the firing line.

# WAR BOARD ISSUES EXEMPTION BLANKS; 120 MORE NOTIFIED

No official information has been received here that the quota will be increased from this district, but it is very probable that five or six more men will be required to make up a deficit in the number required owing to the clerical error in computing for the draft.

The local exemption board is busily engaged sending out the notices, the first 120 of which were mailed yesterday and early this morning a number of the men conscripted appeared before the board to secure the exemption blanks. One man claimed exemption on three grounds, being married, being in business and on account of his religious belief. The business claim was stricken out but he will file for exemption on the other two claims.

The second 120 notices were mailed today and work was started on the third group. The first 120 will appear before the board Monday, the second group Tuesday and the third group Wednesday.

(Associated Press Telegram)

Columbus, O., Aug. 2.—Hamilton G. Dewees of Columbus, George Leist of Beaver, Pike county, and Peter Albertz were today appointed to positions in the chattel loan bureau in the blue-sky department by Commissioner Patrick Berry. Albertz, who succeeds John V. Cameron of Defiance, who now is in the insurance department, has been in the office of the auditor of state.

## DELAY SCHOOL OPENING.

Cambridge, Aug. 2.—Here is good news for the boys and girls of the Cambridge schools. They are going to have a longer vacation this summer than in the past, as the schools will not take up until Monday, September 10. This was decided on at a meeting of the board of education Tuesday evening. Heretofore the regular summer vacation has ended on the first Tuesday in September.

## SWEDISH PROHIBITS EXPORTS.

(Associated Press Telegram)

Stockholm, Aug. 2.—New regulations prohibiting exports were issued by the Swedish government today. They cover a long list of various articles, the most important being provisions. The purpose of the new prohibition evidently is to prevent brass, lead, copper, nickel and other base metals leaving the country.

This business man has just quit his desk to command a regiment and help America win the war. Almost all the big successful men who give commands in business or in the Army prefer Adams Pepsin, the Original Chicle Gum, to any other gum. It keeps their high strung nerves steady and their digestions in trim.

**NORWAY WOULD TRADE SHIPS FOR U. S. FOOD.**  
(Associated Press Telegram)  
Washington, Aug. 2.—Norway, facing starvation if the United States cuts off exports of food, is ready to release a million tons of her shipping in return for the privilege of importing food—principally from the United States.  
Dr. Fridtjoff Nansen, head of the Norwegian mission to the United States declared here today unreservedly that Norway faced privation if the United States enforced an export embargo against her.  
Anxious to maintain their place in the world as a seafaring nation, a common carrier of world commerce and in order to get foodstuffs for themselves and keep their maritime flag afloat he said they were willing to barter ships for food.

## BUTTE COUNCIL TO AID SEARCH FOR SEVEN VIGILANTES

Associated Press Telegram  
Butte, Mont., Aug. 2.—The citizens of Butte spent a restless night owing to rumors of wholesale lynchings and threatened outbreaks by the comrades of Frank Little, Industrial Worker of the World leader, who was dragged from his hotel by a party of seven and hanged to a railroad bridge early yesterday. The city council, at the request of Mayor W. H. Maloney, voted to offer a reward of \$1,000 for the arrest and conviction of any of the slayers of the I. W. O. W. leader.

District Attorney B. K. Wheeler declared that he had referred reports of some of Little's speeches here, alleged to be seditious in character, to the attorney general for an opinion. He was awaiting a decision before ordering Little's arrest, he explained, as he was not positive that Little had violated any federal statute.

The metal mine workers' union requested Sheriff John K. O'Rourke to appoint 1,000 members of the union special deputies to aid in preserving peace. This the sheriff declined to do, stating that he felt it would be unwise to arm so many.

### PROBE FLOUR PRICES

Washington, Aug. 2.—The federal trade commission will begin next week a four-month investigation as a part of its general food inquiry. A corps of investigators under Dr. E. O. ## LAST YEAR at the NATIONAL TOURNAMENT

The concern controlling tobacco sales at the championship tournament at Forest Hills last fall states that the sale of *Fatimas* exceeded that of any other cigarette.

So at tennis, just as at the golf clubs and baseball games—*Fatimas* are a favorite.

—For the delicate relish of their finely balanced Turkish Blend

—For the comfort this blend gives to throat and tongue

—For the keen, alert feeling a man retains, even after smoking more often than usual

*Fatimas* are a sensible cigarette. Try them and see for yourself.

## A VACATION TRIP ON A FREIGHT STEAMER

Via Northwestern Steamship Company's Steel Steamers

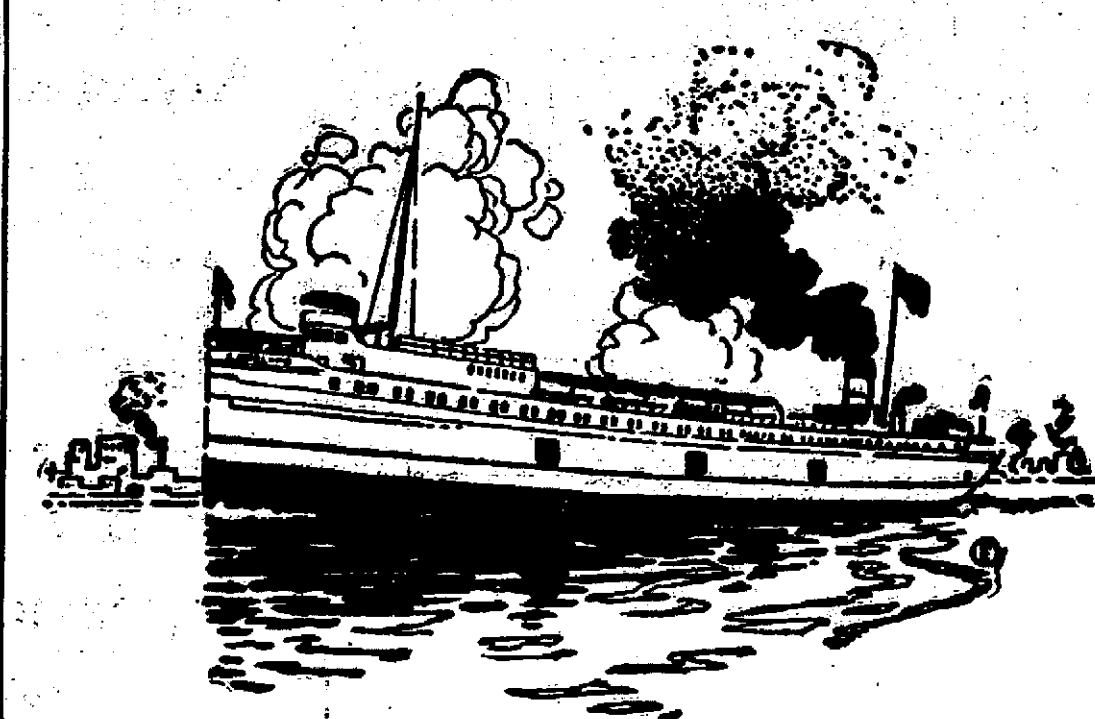

From CLEVELAND, OHIO, to GLADSTONE, MICHIGAN  
and Return, with Five-Hour Stop at Historic Mackinac Island. Six-Day Cruise

Round Trip, \$37.75  
(Children under 12, half fare)

Including meals and berth. No extras. The accommodations are fully up to the best passenger steamers. Each stateroom is an outside room, lighted by electricity, has running water and a double lower and single upper berth. The saloon is roomy and comfortable, a smoking and card room in convenient, and the large dining room extends the full width of the ship, with observation windows on each side that permit a perfect view of the passing scenery as you dine. A promenade deck extends completely around the ship—seven times around makes a mile.

### THE TABLE

The meals are unusually good on the Lakeland. The galley is roomy and properly fitted out and is in charge of old and experienced chefs. Fresh fruits, vegetables, poultry, eggs, butter and milk are served from the farm at Gladstone and Cleveland. We buy only the best the market affords; but, it is our fish that we are particular. We have arranged with fishermen on Lake Erie and Lake Michigan, to pull their nets just before leaving time of the boats, so that our passengers may have fish just out of the water.

Steamer Lakeland, N. W. S. S. Co. Equipped with Wireless

Round Trip, \$37.75  
(Children under 12, half fare)

The Steamer Lakeland, is a staunch steel freight steamer of the most modern design. She carries general merchandise on the up-trip, and flour from the Minneapolis and St. Paul mills on the down trip.  
As the passenger business of this company is a by-product of their freight traffic, the officers of this line do not require additional crews for the handling of passengers, thereby making it unnecessary to disturb men from productive industries during the trip.

### FEATURES

A piano and victrol are maintained on the Lakeland for the pleasure of the passengers and dancing is indulged in every evening.  
For those who desire to take advantage of the best in Gladstone picnic grounds will be furnished.  
Automobiles, motor-boats and sail boats can be obtained at Gladstone at moderate rates.

Remember—\$37.75 Covers Everything for the Six-Day Trip. Children Half Fare.

This is one of the most delightful trips in the world. The steamer leaves Cleveland on sailing dates at 11:00 P. M. The Cruise takes the passenger through Lake Erie, the Detroit River, Lake St. Clair, The Flats, justly termed, "The Venice of America," and on up the beautiful St. Clair River, past Port Huron and through the St. Clair Rapids into Lake Huron, second largest body of fresh water in the world. Early morning finds the ship passing the bluffs of Thunder Bay and entering the Straits of Mackinac. A stop of five hours is made at historic Mackinac Island. Leaving the island at 6 P. M., the site of old Fort Michilimackinac on the mainland is quickly passed. Just across the Straits is St. Ignace, the spot where Marquette established his first mission. Past the Garden Islands and Beaver Island the ship goes in the night, and morning discovers the entrance to Green Bay. This is an entrancing sheet of water. On its west shore, and guarding the entrance to Little Bay de Noquet, is Escanaba, the great iron ore and lumber shipping port. Seven miles up the bay, and reached by a tortuous channel and protected by towering hills, is Gladstone, the northwest terminus of the Northwestern Steamship Company. This is the summer country par excellence. Hay fever is unknown, and the pine-laden woods produce the most restful sleep. It is the fisherman's paradise. Trout abound in the swiftly flowing streams, while bass rise to the fly. Along the shallows of the Bay, pike and pickerel are plentiful that large strings are caught from the docks on the Gladstone Bay front. Across the bay from Gladstone and quickly reached is Maywood, the most beautiful resort on Lake Michigan. Bathing, picnicking, sailing, motoring, and fishing keeps one busy while the ship is discharging and taking on cargo. A dance is given on shore the night the boat is at Gladstone. Just a few minutes street car ride from Gladstone is Escanaba, a city of 20,000 people.

The Lakeland leaves Gladstone at 3 P. M. the second afternoon and passes through the Straits of Mackinac, the St. Clair and Detroit Rivers by daylight, arriving in Cleveland at 3 P. M. the sixth day.

This Will Make a Vacation Trip Long to be Remembered

Make reservations early. The boat leaves Shepherd's Dock, 1078 West 11th St., Cleveland, at 11 P. M., Monday, July 2; Wednesday, July 11; Friday, July 20; Sunday, July 29; Tuesday, Aug. 7; Thursday, Aug. 16; Saturday, Aug. 25. Passengers may come aboard at 9 P. M.

Entered as second class matter March 10, 1882, at the postoffice at Newark, Ohio, under the Act of March 3, 1879.

No complaint is heard from the seaside resorts about the sharks except those in the hotels.

The food speculators would better speculate on how they can escape jail if they keep on much longer.

The college graduates are now knocking up against a cold, cold world, some willing to accept a position, others looking for work.

It is not true that many of our railroad cars are worthless, as the museums of historical antiquities would pay something for them.

Soft collars are more popular than ever this summer, and if men had the courage of their convictions, no collars would be even more so.

The laws allow "reasonable speed" in driving an automobile, and reasonable speed is usually enough to get ahead of all the other machines.

If you wish to be acclaimed by the boys of the neighborhood as the savior of your country, all you have to do is to bring a good fat 25-cent watermelon home.

The railroads can't buy any more cars because their net income has fallen off and they can't get any more net income because they don't have enough cars.

The fellows who won't enlist because they don't want to give up their jobs, may have to stick to those same jobs when men with more courage are getting better ones.

The thinkers and philosophers do not make much of a splurge at the summer resorts, but it is astonishing what a commotion will be created by a \$10-a-week boy who can demonstrate three new fox-trot steps.

What a grand and glorious feeling it is to have on a newly-laundered pair of white trousers, with which you can safely go to the ball game if you spread a large handkerchief on the bleachers and keep absolutely still.

## DISCARDED ELDERLY MEN.

The head of a large printing office in New York recently wanted three boys to serve as office-workers and messengers. He advertised and got no replies. It occurred to him to try for elderly men who were out of work. He advertised with that in view, and had 50 replies.

Most of these men wrote good letters and seemed intelligent. He put three of them to work and found them very satisfactory. It was a suggestion that there is a large class of elderly men who have been discarded from shops and stores, yet who are capable of doing very good work.

Industry is swift today, and a great many men drop out at a premature age. At sixty a man should still be able to do a lot of work, but many find themselves unable to keep up with the younger fellows. If a man is sick and out a week, he may find some one in his place when he comes back. The firm may not have turned him off, but they are not sorry for an excuse to put in a younger man.

Men of this age are serious-minded, they work with fidelity, and often their experience enables them to offer useful suggestions. A great many of them on losing their regular employment will take up the doing of odd jobs. Men of much intelligence are often seen doing small tasks much below their abilities. Many elderly men are spending this summer in garden and farm work. As long as the war lasts they can find employment on the land. Very likely they would be better off there permanently than taking precarious positions in factories and

**Did You Know**  
 That the custom of having three meals a day was observed among the Greeks and Romans of the classic ages? It was the general practice to have the principal meal toward evening, a light meal in the morning, and another in the middle of the day. The akratismas, aristons, and deipnon of the Greeks corresponded nearly to the breakfast, luncheon and dinner of the present time. In Rome in the Augustan age the three corresponding meals were jentaculum, prandium, and coena. The two former were simple except among persons of luxurious habits, but the coena, taken in the evening, consisted of three courses, with a great variety of viands.

**Piece of News.**  
 (Ohio State Journal.)  
 Here is an item from a Chicago paper that embraces a very important doctrine of neighborhood life: "It's all right to turn the hose on noisy neighbors. Municipal Judge Caverly decided yesterday."

"William Felt, 7230 Elmwood avenue, was arraigned for having drenched a porch party at the home of Mrs. Elizabeth Miller, 7232 Elmwood avenue, Tuesday night."

"What else could a man do?" said the judge. "Discharged."

This legal construction of human rights would justify a person, standing on the sidewalk with a hose in his hand, in squirting a lively stream of water on every speeder and cutting off fiend that passes by. "What else could a man do?" considering the law does not provide protection.

**Advertising Competitors.**  
 The question before the merchant is not merely what he is going to do with advertising. It is what advertising is going to do with him. The retail store does not think it can ignore the matter of advertising. For whether it tries publicity or not, it is affected by publicity, and it must meet the advertising of its competitors.

This is not merely that the enterprising merchants of a town are drawing trade away from those who are conservative. It is also that the merchants of a town like ours are affected by the advertising of great metropolitan department stores and mail order houses. If our merchants remain passive, a large section of their trade will be drawn away from them by the vast advertising campaigns on which millions are spent.

Big city newspapers and other forms of advertising are coming in here all the time, and the announcements in those mediums attract our people. The goods are not any better, if as good. But the fact that the sellers thereof have confidence to boom them as persistently as this, draws away the business from the home town. The only way to meet advertising is by advertising.

## NO MORE INDIGESTION

Such Remarkable Results Obtained by Users of Magnesia Neutrate That Makers Now Guarantee Satisfaction or Money Back

Soon we may hear no more of indigestion, dyspepsia, heartburn, flatulence, wind or similar forms of digestive and stomach troubles, for truly wonderful results are being obtained from the use of a simple, antacid known as magnesia neutrate. Many remarkable reports have already been received and it is regarded as certain that the old unsatisfactory methods of treatment, such as dieting and drugging, will become obsolete, for whereas drugs merely alleviate the symptoms, magnesia neutrate removes the cause of all the trouble. That is to say, it neutralizes the harmful acid in the stomach, stops the food fermenting, dispels wind, and soothes and heals the inflamed stomach lining. To accomplish these desirable results it is only necessary to take a teaspoonful of the Neutrate in a little water after meals—no alteration in diet need be made. It is important though that sufferers should ask the druggist very distinctly for **magnesia neutrate**, as of course the results mentioned could not be expected from ordinary antacids. Therefore, insist upon having the genuine magnesia neutrate—it is stocked by T. J. Evans and all other first-class druggists—take it regularly in accordance with the simple directions and you will be well pleased with the results. Should it fail for any reason the trial need cost you nothing at all, for every package is accompanied by a contract which guarantees absolute satisfaction or money back.

## Society

(Society Editor, Auto Phone 28122.)

At a luncheon, Wednesday afternoon, given by Mrs. Marguerite Evans, Brighton Boulevard, announcement was made of the engagement of Miss Ruth Bolin of that city, and Mr. Nelson McCoy of Roseville. Miss Bolin is the daughter of Mr. and Mrs. J. B. Bolin, Luck avenue, Zanesville, and a niece of Mrs. Margaret Hall, and Miss Hannah Allen of this city.

Flask was the luncheon color and the announcement cards were concealed in the roses of that color. Miss Bolin is a pianist of ability and has been one of the active members of the Thursday Morning Music club. Mr. McCoy is manager of the Nelson McCoy store company at Roseville. He attended Ohio State University and the University of Michigan. Among the guests at the announcement party was Mrs. Glen O. Bolin, who was formerly Miss Rhea Ingier of Newark.

Announcement is made of the marriage of Miss Faye Kresger of Zanesville, and Mr. Earl Critz of Seville, which took place Saturday, July 28. Mrs. Critz is the daughter of Mr. and Mrs. George Kresger of Granville, and has been teaching in the public schools in Zanesville. She is a graduate of the Zanesville high school. Mr. Critz was a former student at Denison University.

Miss Helen Redman will be hostess to the members of her club this evening at her home, North Fourth street.

Many former students at St. Mary's of the Springs, Shepherd, O., will be interested in the change of superiority recently made at the general chapter meeting held at the academy.

Mother Venetia, who has been head of the order for twenty-six years, did not feel able to assume the responsibility for another six years, and she was succeeded by Sister Miriam, who has been mistress of the Novices, and now becomes mother-general.

Sister Hilma becomes bursar-general, replacing Sister Mary Aquin.

At 5 o'clock this evening at the Chautauqua tent the members of the tent crew and the entertainers for the afternoon and evening will enjoy a picnic. Mr. and Mrs. J. A. Beery, Miss Irene Beery, Miss Christine Sulzer, Mr. and Mrs. D. L. Davies, all of Columbus, will motor here, and Mr. and Mrs. Reginald of Chicago, and Dr. Ng Poon Chew will be present, besides Mr. B. ## Our Boys and Girls

If in making children's dresses and shirt waists, you will hemstitch the yokes and collars and cuffs, the machine as follows, they will wear just as well and look much better.

Use any soft paper that will crease and tear easily. I have the same thickness of paper as the width of opening in the hem stitching you desire. Place one piece of goods under the paper and the other on top and sew. Crease the paper as the width of opening in the hem stitching you desire. Place one piece of goods under the paper and the other on top and sew. Crease the paper where stitched and tear out, finish the raw edges by stitching or hemming as desired.

When a baby chafes, try bathing him with warm water and a little soda. Put dry and powder well.

Children love sweets and homemade ones are always best. Dried cream bars are made by boiling three cups of granulated sugar and one cup of cold water until it will harden when dropped into cold water. Do not stir while cooking.

Beat well the whites of three eggs and pour the sugar over them slowly. Stirring constantly until thick enough to mold. Then add one and a half pounds of chopped dates. Make into bars an roll in powdered sugar.

## Every Day Etiquette

"I spent the week-end at the lovely country home of the Deans, and I feel so sad to think I cannot return their hospitality. You see, I have no home to entertain my friends in, I do wish I could show my appreciation," sighed Ruth.

"I should think it would please your hostess to send her one of the latest books, or a box of chocolates; or, perhaps, a few sheets of music, or a tape record, for the gramophone, as all of these mentioned articles are inexpensive, and yet difficult to get in the country," suggested her girl friend.

It's easy enough to forgive the fellow who makes a fool of himself, but it's quite another matter if he makes a fool of us.

## NATIONAL BREAD ECONOMY

## Our Women Must Learn Thrift

By Ida C. Bailey Allen.

Editor: Housewife Forum, Pictorial Review, author Mrs. Allen's Cook Book, lecturer Westfield Domestic Science Schools.

It does not seem much to throw away a bit of bread, for generally even a whole slice means little to the housewife. But we will suppose that there is wasted daily in each home the equivalent of a small slice of bread. This is approximately half an ounce, and may be in the form of either crusts, or badly cut bread. There are twenty million households in this country. The waste then 625,000 pounds daily. With bread at ten cents a pound (in many localities it is much more) this national waste costs us \$62,500.00 a day. This makes a yearly total of \$22,712,500.00! An appalling figure.

My experience with hundreds of thousands of housewives leads me to believe that this figure is too conservative. What about the crusts that the children are not taught to eat? How about the bread that is allowed to mold because the bread box is not kept dry and clean? Think it over, and I dare say that the waste in your own household will amount to an ounce instead of a half.

The word "calories" and the term "food values" mean but little to the average woman, but the facts that a slice of bread contains as much nutriment as a glass of milk, a slice of lean beef, a cup of vegetable soup, eight oysters, or a handful of almonds, are concrete. Who would think of throwing away any one of these things?

In France and Italy the lands where home economics and domestic science are honored professions, and where the women are ashamed to be other than good housekeepers, every scrap of bread is saved and utilized. The crusts and ends are dried out with a slow heat, then rolled and used in place of flour. Crusts or scraps are toasted to be used in soups with vegetables or fruits, and crumbs are put through the food chopper to be used in making croquettes, escallops and puddings.

Every spoonful of crumbs that is saved, even those crumbs that scatter from the loaf when it is cut, means an equivalent amount of flour, and more, is being saved for the nation. For these crumbs can be used in thickening soups and gravies, instead of flour, and every bit thus used saves an equivalent amount of flour which can be used for other purposes. Not much in itself, but a huge amount when contemplated in the light of our twenty million households.

## Breakfast Cereal.

3 cupfuls broken bits dried white bread, or equal parts of white and whole wheat bread; 3 cupfuls boiling water; 1/2 teaspoonful salt.

Boil gently for ten minutes, stirring with a wire whisk or fork. Serve with milk and sugar.

## Dried and Nut Cereal.

Steamed Brown Bread. Chop the brown bread thoroughly, and then grind into coarse crumbs. Add 1/4 as many nut meats and serve with milk and a little salt, as the main dish for a simple luncheon or supper.

## Bread and Tomato Soup.

1 cupful diced turnip, 2 onions chopped, 2 stalks celery, chopped, or 1/2 teaspoonful celery seed, 1 1/2 cupfuls crumbled dry bread crusts; 2 cupfuls tomato, 1 quart water, 2 tablespoonfuls sausage, ham or bacon fat. Salt and pepper to taste. Combine the vegetables, tomato and water, and cook gently until the vegetables are tender, about an hour, replenishing the water to keep the first amount. Rub through a sieve, add the fat and crusts and simmer gently for ten minutes, stirring with a whisk; then season to taste.

## Toast and Onion Soup.

1 dozen medium sized onions, 12 slices stale or dry bread, toasted; 1/2 quarts any good meat broth, grated cheese.

Slice the onions and fry them gently until soft and yellowed in any good cooking fat. In the meantime toast the bread and put two slices in each soup plate. Put the onions on this, pour over the broth which should be boiling, and sprinkle with the grated cheese. Crumbled bread crusts may be used for this soup, if they are first toasted in the oven.

## Milady's Boudoir

So many people are apt to forget that the teeth and the condition of the teeth is just as important a part of the body as any other members and should receive as much care.

Not only is it necessary for the sake of the teeth themselves to have them properly and regularly cared for, but physicians are becoming more and more conscious of the fact that the teeth are largely responsible for the mental, moral and physical condition of the individual.

A few of the better-known illnesses which have been traced to bad teeth include several forms of rheumatism, carbuncles and boils, anemia, adenoids, tonsillitis, and glandular swellings, neuralgia and gastric neuritis, gastritis, appendicitis, pleurisy, nephritis, diphtheria, laryngitis and heart trouble.

Brush the teeth night and morning, and, if possible, after each meal. It is especially important to remove all decaying particles before going to sleep, least they cause poisonous gases in the night when there is not enough saliva in the mouth to prevent harm.

Another effect from bad teeth aside from spreading germs, is that food insufficiently chewed is not properly prepared to enter the stomach and is not so mixed with saliva to insure digestion before being swallowed.

## EDWARD M. JONES.

Edward Milton Jones, aged about 60 years, died this afternoon at 1:30 o'clock at the home of his sisters, 17 Oak street. He came to Newark about six weeks ago and has been ill since that time. ## Examine your teeth tonight

—after you clean them.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the cervical. YOUR DENTIST PRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—pyorrhea or decay, both of which develop, as a rule, only in the month where germs lodge tartar is present.

SENRECO, the monthly discovered formula of a dental specialist, is revealed in its action. First, IT REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in loosening away food deposits. Second, it is particularly destructive to the germ of pyorrhea. Yet it is so perfectly safe, containing neither injurious chemicals nor hard grit.

Avoid pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c.

Send 4c. to Senreco, 304 Walnut St., Cincinnati, Ohio, for liberal-sized trial package.

Nearly all eastern and many western universities and colleges were represented.

## REDUCE WAR TAX ON CORPORATION SURPLUS NOT USED

(Associated Press Telegram)  
Washington, Aug. 2.—In further revision of the war tax bill the Senate finance committee today decided to reduce from 15 to 10 per cent the tax rate on corporations' undivided surplus, which large interests have vigorously opposed. The new ten per cent rate also would not be applicable to undistributed surplus "actually invested and employed in business or retained for employment in the reasonable requirements of the business."

The change was made in what is known as the Jones amendment and virtually is a surtax on corporate incomes. The modification provides that should corporations retain surplus income, ostensibly to use in their business, and then hold the surplus without using it, the original 15 per cent rate shall apply.

No other revisions of the bill were agreed upon today, but the committee hopes to complete it by Saturday for beginning of Senate debate next week.

The tax on surplus applies in addition to tax on corporations, to joint stock companies or associations and insurance companies, payable upon 1915 incomes.

## ANOTHER LINDSEY ESCAPES FROM JAIL

2 P. M. 84

Welcome relief from the intense heat of the past several days was felt today, though the weatherman has neglected to tell us whence this relief came. Temperature was nearly 10 degrees lower today than yesterday.

A glorious breeze which really was cool blew most of the day and Newarkites revelled in the luxury of some measure of comfort.

The weather bureau's promise for tomorrow is brief and to the point. It simply states that the weather tonight and tomorrow will be fair.

**WEATHER IS COOLER.**  
(Associated Press Telegram)  
Cleveland, O., Aug. 2.—Cooler weather came to the relief of sweltering Cleveland today. With a breeze sweeping in off the lake, the government kiosk, the public square, registered a temperature of 80 degrees at 9 a. m. This was 8 degrees below the 9 a. m. mark of yesterday.

### TWO DIE FROM HEAT.

### POOR ATTENDANCE MAY KILL KALAMAZOO RACE

(Associated Press Telegram)  
Kalamazoo, Mich., August 2.—Poor attendance threatened the success of the Kalamazoo grand circuit meeting and it is reported that this year's meeting may be the last there. The Kalamazoo grand circuit meeting is held at the Kalamazoo race track, which is located on the corner of the Kalamazoo and Grand streets. The track is owned by the Kalamazoo Race Track Association, which is a corporation organized for the purpose of operating the track. The track is one of the best in the country and has a long history of successful racing. The Kalamazoo grand circuit meeting is one of the most important events of the season and is expected to draw a large crowd of spectators. However, the poor attendance at the meeting has caused the organizers to worry about the future of the track. It is reported that the Kalamazoo Race Track Association is considering the possibility of closing the track if the attendance does not improve.

### LEGAL NOTICE.

Charles Voorhees of Pataaskala, while returning from Gahanna Thursday night reached the railroad crossing at the intersection of the Kalamazoo and Grand streets. The car was struck by a train and the driver, Charles Voorhees, was killed. The car was damaged and the driver was killed. The Kalamazoo Race Track Association is considering the possibility of closing the track if the attendance does not improve.

### LEGAL NOTICE.

Harry C. Sprout who resides at 771 Dixie Avenue, Detroit, Michigan, will take notice that the Kalamazoo Race Track Association is considering the possibility of closing the track if the attendance does not improve.

## LET HER SIZZLE; USE YOUR TANLAC

Master Medicine Will Keep Your Stomach Sweet and You'll Keep Sweet, too.

If you haven't been standing the heat well, look to your digestion. Tanlac will put it into perfect working order and you can defy the hottest ray of Old Sol ever let loose. Heat resistance, remember, depends largely upon the strength of your stomach. The Master Medicine will keep your digestion in such fine trim, torrid weather will be a pleasure. J. W. DeLong, 180 Jackson Street, Newark, says:

"I had stomach trouble for a long time and could not get permanent relief until I tried Tanlac. Since taking that medicine I am rid of sour stomach and bloating and it helped my nerves so much that I can sleep without the least bothering me."

"Until this summer the warm weather used to disorder my digestion and take my appetite, but now I can eat with a relish and never feel ill effects. Tanlac made me feel strong and built up my health generally. No doubt it is a reliable tonic."

Tanlac, the new vegetable tonic, stomachic, appetizer, combatant, invigorant, is being specially introduced at W. A. Erman's Arcade drug store, where the Tanlac man gives the particulars to steadily growing crowds daily. Tanlac will brace you up quickly. Just try a bottle and see. (Advt.)

## LARSON FAMILY SETTLED IN LICKING CO. 100 YRS. AGO; MADE TRIP IN COVERED WAGON

In 1819, just 100 years ago this summer, Mr. and Mrs. James Larson and their two little boys, Abram and Thomas, aged five and three years, respectively, of Chester, Morris county, New Jersey, in company with several other families, came overland in covered wagons to Newark, O. They were quite a while in making the trip and slept at nights in their well-protected wagons.

Mr. and Mrs. Larson purchased of the government a tract of land in the extreme northern part of Eden township, this county, jutting against the Knox county line, on land now owned by Wheeler Rine, formerly of Newark.

This tract of land was an unbroken forest in which were all kinds of wild game and a few semi-fierce animals, but "this was their welcome home." Mr. Larson began at once to build a house, stable, and other buildings, all of logs, of course. The next step was to clear away the timber, erect rail fences, raise the ordinary crops and in a few years the virgin soil produced ripened and beautiful fields of wheat, corn, oats, etc. Mr. Larson lived 40 years to enjoy his new paradise, and his consort about six years longer. The hospitality that existed among the pioneer neighbors of those days was marvellously genuine and real for they had no many rugged hardships in common.

Their immediate neighbors of those days were the Daves, Pauls, Leslies, Congers, Colvills, Marriottes, McClellands, Lyons, Beattys, and others, and a warm and cordial feeling exists among the descendants of those families even to this very day.

In addition to improving his land, Mr. Larson found time to do some long hauling. He frequently was employed by the merchants of Martinsburg—a village three miles away—to haul their produce that they had purchased of the "traders"—such as butter, eggs, turkeys, potatoes, grain of various kinds, wool, etc.—to Zanesville, the only distributing point within reach, and there exchange it for groceries, dry goods, barrel salt, hardware, garden and farm implements, etc., etc.

The route taken was first to Newark, then the plank road to Jackson town, and east on the old National Road to Zanesville. It would require several days with his four-horse wagon, heavily loaded both ways, to make the round trip.

The community soon became church-going one and Rev. Mr. Hervey, father of Rev. D. B. Hervey, formerly of Granville, a Presbyterian divine, preached nearly all funerals and married all young people. Those who attended the log church, so far as locomotion was concerned, were wagoners, equestrians, equestriennes, and pedestrians.

The ministers of those days were generally middle-aged men, scholars, excellent teachers and preachers.

The two small boys grew to maturity, helped to clear the land and attended a few months of school each year. It is surprising the thoroughness of the fundamental branches taught in those days. The pupils were nearly all good readers, spellers, writers, and well versed in the principles of arithmetic. One of the necessary qualifications of a teacher is to know how to make a goose and a pen and keep it in repair. A little singing school soon became quite popular.

Abram Day, the older son, attended the Martinsburg academy and fitted himself for teaching and was for many years one of the most successful teachers in Eden and Salisbury townships, Knox county. He was a fine lawyer and a rare in those days as well as a good father and a good neighbor. He was a fine public speaker.

## ADEQUATE HOSPITAL PROVISIONS MADE FOR U. S. SOLDIERS

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 2.—Adequate provision for reconstructing hospitals, where crippled soldiers may be fitted with artificial limbs and be re-educated in new trades is included in the army medical department's hospital program, as outlined in a statement today. This will not be undertaken, however, until after completion of the 32 hospitals at national army and national guard camps, enlargement of more than 30 hospitals at officers' training camps, establishment of at least two general hospitals at ports, and of a number of special treatment institutions.

"The aim of the medical department," says the statement, "is to have hospital provision for 5 per cent of the enlisted force by fall and to proceed to extend that to 10 per cent by April 1, 1918, and to 20 per cent of the American expeditionary forces will be provided."

"At cantonment hospital provision will be made for 3 per cent of the troops at each camp. A complete modern hospital will be constructed at each cantonment, at least 1,000 beds. The 32 hospitals will cost about \$14,500,000."

"About 70 buildings will be comprised in each cantonment hospital on the 1000-bed basis."

"Every man in the new army will have the equivalent of six or more examinations by specialists, in addition to the regular annual examination. Every man will be examined for tuberculosis, affections of the heart, foot, ear, throat, and nose diseases, hookworm and other intestinal infections, and for typhoid, paratyphoid and other disease-carriers which are sometimes present and communicable to others when the person himself is in good health."

"It is a fact that many men are entered in the records as 'sick,' when they would not be so considered in civil life. The sick lists in the modern military camps of this country show under 1 per cent of cases which would be regarded even as moderately serious in civil life."

## GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach often leading to gastritis accompanied by serious stomach ulcers. Food fermenting and souring creates the distressing gas which extends the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acid. Instead get from any druggist a few ounces of Bismarck's Magnesia and take a teaspoonful in a quart of water right after eating. This will drive the gas, wind and bloated right out of the body, soothe the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck's Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

ON THE DEFENSIVE.  
Your first line of defense should be to protect your own life and the lives of others and the car you are driving. How many times have you noticed the other fellow side swipe some corner or car because his car skidded on the slippery streets. Buy a set of Pennsylvania Vacuum Cup tires and insure yourself against the slippery streets. It may save you the cost of your car and possibly that of your life. You can not afford to take the chance. Let S. M. Wolfe, 59 Hudson avenue equip your car today with these life insurers. If you have an old tire you would like rebuilt, bring it in, Mr. Wolfe will put it in good shape and you can get many more miles use out of it.

"Slow but sure" may be a good motto, in spite of the fact that it never caught a train.

## GLEAVES' REPORT SAYS ONE U-BOAT WAS DESTROYED

(ASSOCIATED PRESS TELEGRAM)

Washington, Aug. 2.—The story of the submarine attacks on transports conveying America's first expeditionary forces to France is told today in the official report of Rear Admiral Gleaves, commanding the naval convoy, made public by Secretary Daniels.

At least two undersea raiders are indicated to have taken part in the first attack, which was centered on the flagship of Admiral Gleaves. The second group of transports also encountered two submarines, one of which apparently was destroyed by bombs from an American destroyer.

Regarding the third group of vessels, there is some difference of opinion among officers of the convoy as to whether it was an attack, but there is much evidence submitted to indicate that submarines were repelled by the accompanying vessels of the fleet.

The report was given out by Secretary Daniels, with information of military value deleted, after an uncorroborated copy had been sent in confidence to the Senate naval committee, members of which recently inquired regarding the complete authenticity of the account of the attack as published July 3.

The report was written by Admiral Gleaves while at a French port and was submitted to Admiral Mayo, commanding the Atlantic fleet, who forwarded it to the navy department.

## TWO DIVE IN SHALLOW WATER; NECKS BROKEN

Columbus, O., Aug. 2.—Floyd Edwards and Louis K. Cook sustained broken necks while diving in shallow waters near their homes to seek relief from heat, and as a result, the former is dead and little hope is held for recovery of the other.

Edwards, aged 18, lived with his parents at Greenfield. The accident occurred Monday. His spinal column was broken at the second vertebra. The Cook lad, aged 17, was hurt near his home in Basil, Sunday. His first vertebra was broken. The two were taken to Grant hospital, Tuesday.

After Edwards' death, the Cook lad was removed to his home.

## DON'T DENY.

Do not deny the child that has a musical turn of mind the proper instrument of music that will develop that mind. You can not add to your home a musical instrument that the whole family will get more amusement out of than a Jesse French and Sons Player Piano. You can use it as a player or you can listen to the child grow from the simple to the more classical music. Prepare now to enjoy the winter months by buying one of these players. We have them in many styles and woods, ready to send to your home. P. J. Fairall, 3 N. Fourth street. 2-d-11

## CHINESE EDITOR TO TELL REDPATH PATRONS OF AWAKENING OF ORIENT

**TONIGHT'S PROGRAM.**  
Evening—Music and Impassioned.  
The Regiments; Lecture, "An Awakening of the Nation," by Ng Poon Chew.  
**FRIDAY MORNING.**  
Morning—Lecture, "Scottish Literary Characteristics," by Dr. William A. Collidge.  
**FRIDAY AFTERNOON.**  
Afternoon—Concert, Montague Company, Children's Hour, "Wonderful Peas," Miss Reynolds; Hymns and Philosophy, Oyle Reed.  
**FRIDAY NIGHT.**  
Evening—Light Opera, "Dorothy Murray-Lane Company."

The opening number of the Chautauque proved a success in every way, the audience was most enthusiastic and the Kullarney girls were greatly admired and again, "The audience last night was most responsive, and in spite of the heat, there was a large crowd present to hear the Kullarney girls as a prelude, and Edwin Whitney, in his interpretation of the Whitchell Smith's new play "Turn in the

light" was most highly appreciated. The Regiments arrived at noon today, and their program consisted of readings, songs, and lectures. This is a combination musical company and character impersonations. Tonight preceding Dr. Ng Poon Chew's lecture, they will give besides the musical numbers, character impersonations, including several Jewish numbers.

This afternoon Mrs. Ida C. Bailey Allen, was the speaker. Mrs. Allen is the editor of the "Housewife's Forum" of the Pictorial Review and is read each month by more than 600,000 people. It is a story of the home than any other author before the public.

Becoming identified with the Pictorial Review, Mrs. Allen contributed to food housekeeping. The Ladies Home Journal, Country Gentleman and the Diet Director.

Mrs. Allen's subject was, "Mrs. Uncle Sam Wades In" and is in a direct line with the work done in the city by the committee for the conservation of food, under the council of national defense.

Tonight, Dr. Ng Poon Chew, known as the "Mark Twain of China," has the distinction of delivering "An Awakening of the Nation." Dr. Chew was the founder of the first Chinese newspaper in the United States and through his efforts, he has contributed to the development of democracy in China. Last year he was offered the position of one of the leading districts of China. Dr. Chew is a graduate of the University of California and received his Doctor of Letters degree in 1922 from that institution. A daughter of one of six children, he recently has been awarded the key of Phi Beta Kappa from the college which was attended.

Friday morning, Dr. William A. Collidge will be the lecturer. He is the editorial director of the Redpath Lecture Bureau and has been with the Chautauque for about twenty years. Dr. Collidge is a native of Scotland and was educated in Glasgow and Scotland. He spent three years in Africa with Henry M. Stanley, and for several years was head of the Department of Language and English Literature in the Armour Institute of Technology, Chicago, and was also the first editor of the Technical World Magazine. His subject is, "Scotland Literary Characteristics."

Following the concert, Newark will have a rare treat in the form of a play. The play is a comedy and is a very clever and humorous play. It is a play which has made his boots famous.

The author of some 20 books, probably the best known being "The Jackdaws," his latest book is "The New Mr. Harrison" and others are "The Kentucky Colonel" and "The Arkansas Traveler." Mr. Reed is a regular contributor to the Redpath and Chautauque. Mr. Reed's words pictures are vivid, whether coming from mouth or pen, and this is a number which should not be missed.

## U. S. GOVERNMENT TO HAVE EXHIBIT AT THE STATE FAIR

Columbus, O., Aug. 2.—N. E. Shaw, Secretary of the State Board of Agriculture, is in receipt of a telegram from Washington asking that an entire exhibit building at the State Fair, which will be held August 22 to 27, be set aside for the U. S. Government. This means that the federal government will have the largest exhibit ever made at a State Fair. The exhibit will consist of miniature submarines, modern instruments, and a large number of agricultural exhibits which will prove of unusual interest to the visitors. This exhibit will be in charge of representatives of the government who will come to Columbus to arrange the display, and to inspect and instruct. In addition to this display there will be an exhibit of lecturers, and from time to time during the fair will deliver messages to the crowds which are bound to prove of a beneficial nature. Employees of the government are now working on the exhibit to be made at the State Fair, and never in the history of the Department making these exhibits have they been so much in demand. The exhibit will be made of the national exhibits and expositions held. Heretofore to see the government's exhibit at the State Fair, it has been necessary to journey to Washington. Almost all the large exhibits will be necessary to bring the exhibit from the National Capital to Columbus. The extra charge for the making of State visitors for this expensive and elaborate feature.

The women of Licking county will meet in Granville Saturday, August 4, in the afternoon to organize into a federation for active work in the coming campaign for a dry Ohio. The first session will begin at 10 o'clock. Important business will be transacted and a complete organization effected. A basket dinner will be held at noon. Good speakers will be present, among them being Senator J. H. Miller, Mr. Carroll and Mrs. Frances Benson Fuller, former president Ohio W. C. T. U. In the afternoon a conference will be held under the direction of Mrs. Carey Swisher of Millersport. A large number of speakers will be present. Effie Bartholomew, state chairman, W. C. T. U., will be present as well as Mr. Carroll, manager of the men's dry federation.

## NEW CORNET BAND AIDS U. B. CHURCH PICNIC

The West Newark Cornet Band, composed of 12 pieces, will appear at the U. B. Church picnic which is being held in Smith's Grove, near the city, on August 12. The band will deliver an address in the afternoon.

The band is composed of Jack Johnson, Anderson, Macdonald and Mr. Olive Chambers, and the morning is an annual picnic for the members of the church. The picnic will be held at the U. B. Church, which is located on the corner of the city.

## BOYS LEARN TO SWIM IN Y. M. C. A. CLASSES

The Y. M. C. A. had classes each day in June 1934 to teach boys to swim. These classes were held in the city pool, and the boys were taught by the city pool. The classes were held in the city pool, and the boys were taught by the city pool. The classes were held in the city pool, and the boys were taught by the city pool.

## APPEAL TO COUNTY RESIDENTS TO HELP SOCIAL WORK FUND

The success of the K. of C. recreation centers along the Mexican border last year has encouraged the national officers to undertake this same work on a much larger scale during the prosecution of the great world war.

The work is already begun and for its prosecution at least \$100,000 will be required as rapidly as possible. Every training camp, places will be in demand where soldiers can use their idle time to their best advantage. If no place is found for them, they will be forced to keep to their duty as Americans and as loyal soldiers there is great danger of their falling into the hands of the enemy and of interfering not only with their efficiency as soldiers but of losing their health and wrecking their character and their lives.

To guard against such disastrous results it is necessary that the boys be kept busy and that they be given a chance to prove their loyalty and their efficiency as soldiers by using their idle time in study, in reading, in instructive and useful entertainment in innocent amusement and healthful sports.

All this is furnished to our boys free of cost to them. For immediate and permanent relief from eczema I prescribe Resinol

"If you want to experiment, try some of those things you talk about. But if you really want that itching stopped and your skin healed, get a jar of Resinol Ointment. We doctors have been prescribing that ever since you were a small boy, so we know what it will do."

Resinol Ointment and Resinol Soap contain nothing that could injure or irritate the tenderest skin. They clear away pimples, redness and roughness. Stop dandruff, and form a most valuable household treatment for sore chafes, cuts, burns, etc. Sold by all druggists. Use Resinol Soap for baby's bath.

ron, Ohio, April 21, 1838, and died July 28, 1912, aged 79 years, 3 months and 7 days.

On the tenth day of January, 1860, she was married to John Bash of Homer, Ohio. To this union were born seven children, four of whom are left to mourn the loss of a loving and devoted mother. They are S. D. Bash, C. W. Bash and Mrs. Mary Hall of Homer, and Mrs. Dora Keckley of Newark, Ohio.

There are ten grandchildren, six great-grandchildren, one brother of Baltimore, Md., one sister in Westerville, Ohio, and two sisters in Columbus, Ohio, are left to mourn her departure.

Her husband preceded her into the eternal world in March, 1905. Sister Bash came into the church during the pastorate of Rev. Irish and lived a faithful and consistent member of the Methodist Episcopal church to the day of her death. During the last three years of her life she was

a great sufferer but her faith in God was strong and she bore her sufferings with patience and fortitude. Unveil thy bosom faithful tomb. Take this new treasure to thy trust And give these sacred relics room To slumber in the dust.

Nor pain nor grief nor anxious fear Invades thy bounds; no mortal woes Can reach the peaceful sleeper here While angels watch the soft repose. 8-2-d-11\*
